prepared for

**Nampa First Church of the  
Nazarene**

To: Nampa First Church.

Dear brothers and sisters, God bless you.

We thank God for how important the Nampa church has been for the development of the church in Cuba through its offerings and the important visits of many leaders and members who have shared with our churches and pastors.

We are immensely grateful that with your help we have been able to support missionaries, buy properties for missions, install drinking water systems in some churches, build bathrooms for churches, and help seminary students from the three districts, among other things.

Thank you very much again for being partners with us for the growth and strengthening of God's work in Cuba.

Your brother.

Leonel.

To: Nampa First Church

Dear leaders and members of our sister church in Nampa. God bless you richly.

The Cuba West District is immensely grateful for the help that we have received from you for the past several years.

The Church of the Nazarene in Cuba has been very blessed by you, not only for the monetary aid sent each year, but also for your visits to our churches and pastors, where you have shared in many activities such as construction, worship, and visits with pastors and families. Our churches have grown in these provinces where we organized two new churches, Consolación in Pinar del Río and San Antonio in Artemisa, where we also have another new mission. Among the things accomplished with the aid you sent:

1. Nine missionaries were helped in Pinar del Río and eight in Artemisa.
2. Assistance for seminary students from the three districts.
3. The bathrooms for a dormitory in the Seminary are being built.
4. Water systems were installed in the churches of Caimito, Las Guásimas and El Cayo.
5. Assistance with putting on roofs for the places for worship of the churches in Caimito, Batabanó, Camacho, Quivicán and the mission of El Mudo.
6. The doors and windows for the church in Ariguanabo were installed.
7. Repairs for the church annex at the seminary.
8. A bathroom and kitchen were built in the parsonage of the church in El Cayo.
9. A house for the church in San Antonio de los Baños was purchased for 5 thousand dollars.
10. Five thousand dollars was given toward the purchase of a house for the church in Saavedra Pinar del Río.
11. The roofs of two dormitories at the Seminary, damaged by hurricane Ian, were fixed.
12. The Vizcaino church in Pinar del Río was damaged by hurricane Ian, and it was possible to buy tiles and wood, and pay for labor to put the roof back on.
13. Assistance was given to finish the construction for services at the church in Cangrejas.
14. On the new Northeast district, pews were purchased for the Boma church. The pastor's name is Eudy Cremé.
15. Help for the roof of the church in Almendares.

*From Leonel on 14 Nov 2022*

"Samuel from Saavendra found a very good house. It is in a neighborhood where more people live and it is close to several of his church members. The house is well built, nicely painted, and well protected. It has a large patio where a church can be built in the future. It has two rooms, a bathroom, and a nice kitchen. It has a cistern and the possibility of a telephone.

"They were selling it for \$15,000 but Samuel's son told the owner that his mother liked the house a lot and that she was afraid because the river floods the house where they live. He said that his father only had \$13,000 and asked the owner if she could lower the price, which she did."

When Leonel went to see the house the owner told him that the boy touched her heart. She is a Jehovah Witness. They prayed together before Leonel left.

His name is Eudy Cremé and he sends his appreciation to Nampa First Church.”
